STATUS OF FACILITIES
Dane: We are going to tear down the old building at Crystal Lake and we would like to install Cremation Vaults and have a seating area. Demo of the building will be just a dumpster. Cremation vaults what other places do is buy the first one and then money coming in from burials pays for additional ones. To start they are 50 per square. Brian asked if the Committee would have to set separate rates. Dean said yes. Brian would like us to check the law re: using perpetual care funds for this. John good time to look at this. Dean we would also like to put vaults in the banking area that cannot be used for lots. Brian asked if there were any grants available for this. Dane stated we will check. We will try to have figures for you at next meeting.

REPORTS FROM DEPARTMENT HEAD UNDER COMMITTEE’S JURISDICTION
Dane: We are doing tree removal throughout the City Dean looks at shade tree and posts as a removal or trim. Have a public hearing for all the removals (the list is posted in the newspaper, the Mayor runs the hearing). Dane stated 80% of the people want the tree down, 20% don’t and 5% want a new one planted. Brian once we determine status of tree is tree marked, Dane no just a notice posted on tree before public hearing if we post its bad insurance company states it’s a public safety issue. Dean stated 90% of the trees that are posted come down. Brian people have option of getting a new tree planted, Dane yes. We do not get the prisoners anymore makes things a little harder. We are still computerizing everything, need to take next step.
Water/Sewer is coming back to the City has been delayed because of contract negotiations we need to hire people as Dean will be mowing watershed areas.
