- We know what excellent work looks like and what skills and competencies are needed for students to do excellent work, teaching the constitutive skills and competencies while providing examples of excellent work and careful guidance.

## PROFESSIONAL EXPECTATIONS FOR STAFF

### KEY RESPONSIBILITIES OF ALL GPS FACULTY:

- Punctuality - Be on time, all the time and expect the same from students.
- Attendance - Take accurate attendance. Check the daily attendance bulletin for tardiness and dismissals.
- Teaches Assigned Curriculum - Follow the objectives of the current curriculum guide for the specific course. Continue to revise and make current all curriculums, working cooperatively with other members of your department. Have a working knowledge of the curriculum frameworks and how the standards apply to your lessons.
- Carry out supervisory responsibilities when assigned.
- Be consistent in enforcing school policies.
- Communicate with Parents/Guardians - A call to a parent is an expression of concern and compassion for the student. Communicate with parents in the same manner you expect teachers of your own children to communicate with you. Please call a parent/guardian immediately when student performance is subpar or unacceptable. *Parents also appreciate hearing positive comments about their children. Every effort should be made to provide positive communications to parents/guardians.*
- Classroom Expectations - Make clear which behaviors are acceptable and which ones are not. Follow PBIS principles of tiered behavioral supports as outlined “Student Conduct and Discipline.”
- Protect the Confidentiality of Your Students - Students’ grades, personal problems or special circumstances are between you and the student. Students should never grade one another’s papers or see one another’s papers or see one another’s grades. Keep rank books in your personal possession or in a secure place at all times.
- Read and Process ALL IEPs and 504 Plans - Know the provisions of each individual plan and make necessary accommodations. Respond to all requests from the School Counselor and SPED department in an appropriate and timely manner. The law obligates that teachers implement all accommodations in the student’s IEP and/or 504. It is the teacher’s responsibility to implement all goals and objectives, as teachers can be held personally liable. Attend review meetings when asked.
- Reporting - The following should be reported with consistency and regularity. These are the critical procedural things that make our jobs easy when they are done by all.
  - Harassment/Bullying - If you witness a student being harassed by another or made aware that a student is being harassed, it should be reported immediately to an administrator, school counselor or adjustment counselor.
  - Fighting - Call for help immediately. Do not become physically involved. Attempt to separate students by using verbal commands. Follow up with a written report.
  - Abuse - if you are made aware that a student is being abused either directly or indirectly, the **law obligates you to report it**. Report all suspected abuse to the school nurse/school counselor.
  - Accidents - Any and all accidents should be reported to the school nurse and appropriate administrator who will prepare a written follow-up report and fill out the proper insurance forms.
  - Distraught or Anxious Students - If you are at all suspicious or in the least bit concerned that a student may want to hurt himself or herself, play it safe and report it immediately to the appropriate School Counselor.

**Accountability** - All members of the faculty will perform their assigned responsibilities with excellence while consistently adhering to Gardner’s policies, procedures and expectations.

**Professional Development is not an Option** - All faculty members will engage in professional growth activities that are offered during contracted work hours. All teachers are expected to meet their professional development requirements per contract and licensure requirements. All teachers are expected to update their personal professional development plan and personnel file. If you have new endorsements and/or certifications, please let your Administrators and the District Central Office know.

**School Climate** - All faculty members are responsible for promoting a positive and safe learning environment for all students, through diligent observance of school law and school policy. Frequent and positive school-to-home communication (in the form of phone calls, progress reports, conferences, personal notes, newsletters, and home visits) helps parents feel more comfortable with the school, and more likely to become involved. The Center on Families, Communities, Schools, and Children's Learning (1994) reports that parents are more likely to participate in schools if they receive information from teachers about classroom activities, the progress of their children, and how to work with their children at home.

**Cooperation** - All members of the faculty are expected to work in harmony with colleagues, administrators and staff. For example, if you must leave your class, even if for a short amount of time, please have a cooperating teacher take over until you get back. If there are any issues between faculty, these issues must be resolved in a timely manner to ensure a positive work environment.

**Professionalism** - All members of the faculty are expected to model desired behavior for students by being prepared, punctual, dependable, respectful and civil. All faculty members are required to attend faculty meetings department meetings, and assigned committee meetings.

**RECOMMEND STAFF DRESS ATTIRE:**

As professionals in our schools, we realize and value the public’s perception of our role as mentors and models for students. Therefore, the following dress recommendations apply to all teachers, counselors, paraprofessionals, related service providers, secretaries and administrators throughout the district. The recommendation is to be applied for all days students are present, including parent-teacher conferences.

### **Classroom Expectations:**

#### **Sharing**

- Provide students with an opportunity to share something about their weekend, family, or other important thing in their lives.
- This helps students learn more about one another, and helps build common experiences and references.

#### **News and Announcements**

- Sharing news and announcements with students helps them to understand that we consider them important enough to share information with them. Announcements are particularly important because they provide an opportunity to share information with students. This is where you can let them know about changes in the schedule, share the lunch menu; remind them of upcoming events, etc. This time really helps establish a sense of community and helps students understand that you value what happens beyond your classroom doors.
- Announcements help make connections between different members of the community, and help students prepare for any changes in the schedule or upcoming events. This planning is an important habit of mind for students.

#### **Expectations for Discourse**

- Probing Questions challenge students to explore concepts/big ideas.
- Students express their thinking and reasoning with evidence, and the use of content-appropriate language.
- The majority of students participate in classroom discourse.
- Adequate wait time allows the majority of students to formulate responses.
- Strategic use of techniques, such as “think-pair-share” and “turn and talk”, support student engagement and advance student thinking and reasoning.
- There should be more student talk than teacher talk.

#### **Expectations for Instructional Strategies**

- Instructional Strategies align with standards-based learning objectives.
- Lesson develops/utilizes background knowledge and/or content vocabulary.
- Students learn thinking and reasoning skills in the context of instruction.
- Appropriately scaffolded instruction makes use of manipulatives, technology, tiered questions or other means of student supports.
- Students engage in small group work that aligns with learning objectives.
- Teacher assesses whether students are mastering the content/skills, and are adjusting their practice accordingly.

#### **All students can learn at a high level with help and support if**

- All students are told over and over again in meaningful and compelling ways that academic achievement demands the same kind of hard work that is required to become the best in other arenas—at baseball, basketball, music or playing video games, etc.
- We know what excellent work looks like, and what skills and competencies are needed for students to do excellent work, teaching the constitutive skills and competencies, while providing examples of excellent work and careful guidance.
- We know where each student is academically, and what skills, competencies, and knowledge are

required for each student to access our challenging curriculum. We use data related to student formative, and summative, assessments in order to determine instruction.

## **STAFF ATTENDANCE:**

### **Substitute Folders**

All teachers are expected to maintain an updated substitute folder that will be kept in the Assistant Principal's office, to be used in the case a teacher is absent. The substitute folder needs to contain assignments for each class period for an entire day. Teachers also need to include a copy of their seating chart for all of their classes, class lists, daily schedule and responsibilities. Plan books must be current so that the sub can carry on with the planned lesson. As one can never predict when one may be out sick, it is imperative that the substitute folder be updated.

### **Teacher Absences**

It is expected that each faculty member will make every effort to attend school on a daily basis. However, there are occasions that necessitate an absence. Should you need to take a personal day, a "Request for Absence" (RfA) form (on the Google drive) must be completed and submitted to the principal at least 48 hours in advance of the anticipated absence. If you are going to be late for school, please notify your Administrator as soon as possible.

If you are sick, or there is an emergency...

### **Gardner High School**

Call the principal's cell phone no later than 5:30 a.m. Copies of the day's lesson plans need to be forwarded by email to their "teacher buddy", who will be responsible for making copies and leaving the assignments on the teacher's desk for the substitute(s). Teachers are responsible for leaving copies of class rosters, blank attendance sheets, and emergency lessons in a yellow sub-folder clearly marked on their desk.

### **Gardner Academy for Learning and Technology**

Call Principal to report absences. Email lesson plans to the principal.

### **Gardner Middle School**

Call the Dean of Students at extension 2250 before 6am. Teachers must cite a reason for their absence. If at all possible, please send in updated plans for the day.

1. E-Mail your plans to a colleague or main office secretary.
2. Send your plans in with a colleague.
3. Fax your plans to GMS (978-632-4234).

### **Elm Street School**

Contact the Vice Principal the night before or before 6:00 a.m. Teachers must declare a reason for their absence (ILL/PERSONAL).

An up-to-date substitute folder **must** be maintained at all times. Responsibilities, daily schedules, seating plans, etc., should be readily available.

### **Waterford Street School**

Call the Assistant Principal on their cell phone, either the night before up until **9PM** or in the morning between **5:30 and 6:30 AM**. Please leave a message stating the reason for being out (family sick or sick)

and the hours that you work. If you call this number, you can assume the message WILL be received. Please do not call into Waterford as your message may not be received and sub coverage can't be guaranteed. Also, this phone does not receive text messages so you MUST call in.

**PERSONAL DAYS AND LEAVE: Please refer to teachers' contract.**

**HOMEWORK:**

**Gardner High**

It is a general school expectation that homework is assigned every night. In most cases, homework assignments will be written and directly related to the academic work covered that day. It is recommended that teachers keep careful records of student homework and incorporate it into the term average. Students will receive a course syllabus at the beginning of the year that includes your homework and grading policy. A copy of each course syllabus is to be submitted to the Main office by September 1<sup>st</sup> of each school year.

**Gardner Academy for Learning and Technology**

Classes at Gardner Academy are designed to allow students to work on supplemental work during the allotted classroom time. However, missed work can be done at home and is strongly recommended if a student has been absent, and class work is still outstanding.

**Gardner Middle School**

Teachers have created expectations for the students consistent with other members of the grade level, team, and/or content area. These consistent homework expectations will be communicated with students. Homework will be incorporated as part of the overall grade.

**Elm Street School**

Homework is an important part of Elm Street School's curricula. The Elm Street staff believes that homework assignments serve to fulfill several important objectives. It is recognized that students work at different rates of speed, and that the amount of homework assigned increases as students advance through school. The amount of time that homework assignments are intended (maximally) to take should fall within the following time frames: for Grade 2, 15–20 minutes; for Grade 3, 20-30 minutes; for Grade 4, 30-40 minutes.

**Waterford Street School**

Homework is an important part of Waterford Street School's curricula. The WSS staff believes that homework assignments serve to fulfill several important objectives. It is recognized that students work at different rates of speed and that the amount of homework assigned increases as students' progress through school. The amount of time that homework assignments are intended (maximally) to take should fall within the 10 – 15 minute time frame.

**MAKE UP WORK:**

**Gardner High School, Gardner Academy, and/or Gardner Middle School**

Students are required to make up work when they have missed a lesson; individual arrangements should be made directly with the teacher. Teachers handle missed assignments because of reasons other than absence or disability, on a case-by-case basis. Teachers must send work down when administration or guidance call for make up work to be sent down (for those students who are absent for an extended amount of time).

**Incomplete grades**

Incomplete report card grades must be made up within two weeks of the end of the marking term. The principal may approve extensions should unusual circumstances warrant.

**Extra-Curricular Activities**

Detentions, after school help, or make-up sessions take precedence over after school activities. If there is a conflict, the administration will resolve the matter. Students are encouraged to engage in pre-established after school clubs, or to start an after school club based on their interests. If the latter, students need to find a staff member who agrees to be the advisor for that club. Ask your administrator about stipends for advisors.

**Elm Street School**

Absence from school does not excuse students from their academic responsibilities. As a general rule, if the student’s reason for absence is deemed excusable by the teacher or principal, the student should receive the same amount of time as he/she was absent to make-up missed work. Work missed due to truancy or other unexcused reasons will result in a ‘zero’ for that work.

**Waterford Street School**

Absence from school does not excuse students from their academic responsibilities. As a general rule, if the student’s reason for absence is deemed excusable by the teacher or principal, the student should receive the same amount of time as he/she was absent to make-up missed work.

**STUDENT RECOGNITION:**

Please see your Administration for details of student recognition.

**STUDENT SUPPORTS:**

**STUDENT SUPPORT TEAM (SST)**

The District Curriculum Accommodation Plan (DCAP) is provided to comply with the Massachusetts General Laws C. 71, § 38Q Vz, mandating that school districts provide a District Curriculum Accommodation Plan designed to assist principals in ensuring that all efforts have been made to meet the needs of all students. The building principals and/or assistant principals are responsible for overseeing and implementing a curriculum accommodation plan in their respective buildings to ensure that all efforts have been made to meet students' needs, and that individual learning needs are met in the general education setting. The DCAP is intended to assist general education teachers in analyzing and accommodating the diverse learning styles of all children within the general education environment.

The DCAP also includes a list of sample strategies and other actions from which teachers and collaborating staff may select appropriate instructional strategies and/or accommodations for individual students. Strategies are based on best practices for promoting differentiated instruction, and the use of positive behavioral interventions to support student achievement. The list includes suggestions for accommodating a student's individual needs, relative to academic achievement, as well as strategies and interventions intended to resolve social/behavioral issues. Included in the DCAP is an annotated list of the school-based personnel who are available to assist, and support, general education teachers in analyzing and accommodating the individual needs of their students.

Teachers in Gardner are continuously monitoring students' progress, looking for opportunities to differentiate their instruction and implement accommodations that facilitate learning and foster understanding of

the content area curricula. The district is committed to the concept of early intervention and addressing the learning needs of all students in a timely fashion. Classroom teachers are expected to support student achievement by incorporating in their instruction, any of the identified strategies in the DCAP for presentation, instruction/assessment and/or behavior.

In addition to using the DCAP, an Accommodation Checklist (B1, 2) can be completed for ANY student to ensure a smooth transition from one grade level, or teacher, to the next by documenting effective accommodations that have been implemented by staff members in the past. Teachers offer a variety of instructional practices and assessment tools that include differentiated instruction, flexible and cluster grouping, sound developmental teaching practices, the use of rubrics, and the use of technology.

When a teacher has a concern regarding a student's progress, academic and/or behavioral, the teacher is encouraged to request assistance from the Student Support Team (SST). The principal leads the team that includes the participation of several personnel:

**Core Members of SST:**

- Principal or Assistant Principal
- Guidance Counselor
- General Education teacher(s)
- Special Education Teacher(s)
- Related Service Providers-Early Elem (e.g. Speech-Language Pathologist)
- School Adjustment Counselor
- Family Member
- Social Worker (if applicable to school)
- ESL Teacher
- School Nurse
- Reading Specialist/Math Specialist
- Department Head
- Personnel from state agencies or community organizations
- BCBA/Behavior Specialist
- School Psychologist
- Special Education Team Chair

Parent participation is welcome. The goal of the SST meeting is to develop an intervention plan, and identify an SST partner who will support the teacher in the implementation of the plan. Referring staff member's responsibilities in the SST Process (not in order of responsibilities):

- Identify student's strengths and weaknesses
- Collect student work samples (in identified areas of concern)
- Review educational history
- Review curriculum based assessments
- Review family history
- Review medical history
- Consult with student, family members and other professionals
- Implement general education support services
- Apply recommended accommodations/strategies/interventions
- Keep documentation of interventions

**Purpose of SST:**

Student Support Teams (SSTs) are a formalized structure for a group of educators, administrators, and other staff to meet regularly to address concerns about individual students or groups of students. SSTs are designed to support students both by anticipating and preventing issues before they occur and by providing interventions and/or resources when issues do arise. At the same time, SSTs support staff members by introducing teachers who bring an issue to the team to new strategies and building their capacity to support a wide range of students; teachers are able to generalize successful new strategies beyond the SST process to meet the needs of other students in their classrooms, including struggling students, and students who have already mastered the content being taught.

SSTs are also responsible for academic and non-academic whole-school initiatives, particularly those related to positive school culture, and climate and academic tiered systems of supports. **Primary goal of the SST:** Increased success of students in the general education curriculum, and within the general education classroom.

**The goals of SST are:**

1. To provide immediate assistance to teachers and students;
2. To focus on both prevention and intervention;
3. To assist educators with problem-solving for individual cases, and with building capacity in intervention strategies to support current and future students;
4. To significantly reduce the number of inappropriate referrals for special education evaluations (evaluations);
5. To significantly reduce the number of student retentions, suspensions, and/or expulsions, and
6. To assist Administrators in reviewing issues that are repeatedly brought before the SST to direct resources and professional development.

**Expectations of SST are:**

1. To collect and consider both academic and non-academic data;
2. To come to the meetings prepared to share data on the student(s) being discussed, including data collected through the various support strategies already tried;
3. To monitor the progress of students and the effectiveness of interventions over multiple meetings, and
4. To look at the whole child, and include family needs (and medical needs) when applicable.

**STUDENT SUPPORT TEAM PROCESS**

1. Once a teacher has an academic or social/emotional concern about a specific student, that teacher will meet with the building principal and provide documentation to request SST support. Steps in this process include but are not limited to: review of the student's record, consultation with past teachers, related service providers (including school nurse, guidance counselors), and review of data collected relative to implemented instructional strategies. The teacher will complete a Student Information Form (A 1-4) and an Accommodation Checklist (B 1-2) for the SST's consideration. This begins the formal documentation of the SST process as the student's needs and the general education accommodations and strategies designed and implemented to assist the student's access of the curriculum are identified.
2. When a teacher writes an SST referral (A 1-4), an anecdotal narrative and/or samples of student work will be submitted to the building principal. The teacher will complete the checklist provided that identifies the accommodations and/or teaching interventions (B 1-2) s/he has implemented prior to making the SST referral. The teacher or designee will disseminate forms A 5-7 to appropriate parties. This information will be provided to the principal/designee for distribution to the SST one-week before the scheduled SST meeting. If necessary, an emergency meeting may be scheduled in the event of extenuating circumstances. Otherwise, SST members will be notified at least one-week in advance of an SST meeting.

3. Once team members receive the SST forms (A 1-7, B 1-2), they should prepare for the meeting by reviewing the documents, observing the student (whenever possible), and considering additional responses, strategies, interventions, and recommendations.
4. Discuss concerns, brainstorm ideas for consideration of remediation, identify best teaching practices to implement, and then develop a written Individual Service Plan (ISP) that incorporates the teams' recommended strategies. The referring teacher may request that a member of the team or a specialist complete the Observation Checklist (D 1, 2) during the SST process. An SST member will work as a partner to the referring teacher, assisting with implementation and monitoring of the ISP.
5. A date for the first review meeting will be scheduled by the principal or designee (SST leader), 4-6 weeks from the date of the initial meeting.
6. At the first review meeting, the SST will discuss the outcome of the ISP. At this point, a variety of options may be implemented. If the plan has been successful, the process may be terminated, with the successful strategies being continued or discontinued. If the plan has not been successful, the SST will develop an additional set of interventions. This alternate plan will be documented on the Documentation Log (C 1-4) and a date for a follow-up meeting will be scheduled within 4-6 weeks.
7. If the student is still not experiencing success after consistent implementation of the ISP, the building principal will consult with the building's Special Education Chairperson to determine next steps.
8. Should the SST determine a referral to the 504 Coordinator or Special Education Department, all completed forms and data collected will be forwarded as referral documentation.

## **STUDENT CONDUCT & DISCIPLINE:**

It is the goal of the Gardner Public School system to provide a positive educational environment for every student. The Student Code of Conduct is to be implemented in a fair and equitable manner, which is mindful of the rights of students as well as the security, safety and educational interests of the school. The Student Code of Conduct will not tolerate conduct that endangers the safety of the schools and/or disrupts the educational experience for other students with the recognition that students of different grades and ages are at different developmental levels, thus their behavior will be different and may call for different interventions and consequences. In determining the appropriate level of interventions and consequences, in addition to other mitigating circumstances, school administrators will consider the grade level and age of the student.

Effective school discipline policies promote disciplinary responses that refrain from interrupting a student's education to the extent possible. Schools should minimize the use of out-of-school suspensions, referrals for expulsion, and referrals to law enforcement, to the extent practicable.

We recognize that each student is a unique individual and that every situation which requires disciplinary action has its own set of extenuating circumstances. All factors that may have affected the student's behavior will be considered before discipline is determined. Students who behave inappropriately will receive developmentally appropriate consequences. For a student with special education or disability-related needs, all approaches will be consistent with his/her Individualized Education Plan (IEP) or 504 Student Accommodation Plan and will take into account his/her unique needs and abilities.

Every student must follow all of the rules of the Student Code of Conduct before, during and after school. The Code applies to students on school grounds and at school-related activities on or off

school grounds. Students must follow these rules while awaiting transportation or traveling on a school bus or other form of school-provided transportation in route to or from the school for a school sponsored activity. The Code of Conduct also applies to students off school grounds and during non-school time when the conduct is violating Policy JK of the Gardner School Committee.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

## Addressing Classroom Behaviors

When you need to address student behaviors in your class, you have two questions to answer: Does the intensity or frequency of the behavior halt my instruction? Am I able to teach around this behavior? (Teach Around means that you can ignore the behavior because it does not impact others' learning or address it using a teacher move that eliminates the impact of the behavior. For example: using proximity, giving "a look," tapping the student's desk, taking away the distraction, etc.) If the behavior halts your instruction and you cannot teach around the behavior, then you should work with a counselor or administrator to collaboratively address the situation. The intensity of the behavior informs the urgency of the issue and will dictate whether or not to call an administrator immediately or to set up a meeting outside of class time.

<b>Tier 3 (5%)</b>	<b>EXAMPLES OF TIER 3 BEHAVIORS</b>	<b><u>"WALL BLOCKING THE ROAD"</u></b>	
Disrespect	"Mr. X, shut your f@#ing mouth, you stupid idiot!"	The <b>intensity</b> of the behavior <b>completely</b> halts instruction for a prolonged period  <b>AND</b>  The <b>frequency</b> or <b>duration</b> of the behavior is unmanageable.	Teacher should call administrator
Disruption	Throwing equipment; getting out of control		
Refusal	Leaving school grounds		
Safety	Physical fight/assault; Instigating aggression; Bullying		
<b>Tier 2 (15%)</b>	<b>EXAMPLES OF TIER 2 BEHAVIORS</b>	<b><u>"UP-HILL CLIMB"</u></b>	
Disrespect	"Mrs. X, this is f*&*\$^#! stupid!"	The <b>frequency</b> of the behavior is becoming difficult for the teacher to manage.  <b>OR</b>  The <b>intensity</b> of the behavior completely, but <b>briefly</b> halts instruction	Teacher should call administrator and/or an administrator to address collaboratively with student and parent
Disruption	Yells across the room on occasion; Getting into an argument with another student that disrupts the class		
Refusal	Continually not doing work; refusing to move a seat when asked; cutting class		
Safety	Bullying/aggression		
<b>Tier 1 (80%)</b>	<b>EXAMPLES OF TIER 1 BEHAVIORS</b>	<b><u>"BUMP IN THE ROAD"</u></b>	
Disrespect	"Kelly, you're stupid."	The <b>frequency</b> of the behavior is manageable for the teacher  <b>AND</b>  The <b>intensity</b> of the behavior does not completely halt instruction for a prolonged period.	Teacher manage with classroom routines or give consequences
Disruption	Talking in class; Briefly yells in class		
Refusal	Wearing a hat; using a cell phone; not working		
Safety	Throwing a pencil across the room; 2 students horse playing		

Here we should list the possible progressive disciplinary actions teachers should take.

## Addressing Bullying/Aggressive Behaviors

Gardner Public Schools does not tolerate bullying of any kind. Aggressive/negative behaviors undermine our culture and can create a hostile environment causing stress for everyone. It is important that every adult in the school addresses any behavior that causes harm to another. If this happens, please make sure your actions have the issue I.C.E.D.

### **Interrupt the Behavior**

*Immediately address the behavior you see/hear and let the child know—without demeaning or embarrassing him/her—that our community does not tolerate these types of actions.*

### **Check in privately with each student involved**

*Make sure you talk with the students to find out what happened, the impact of the behavior, if there were mitigating circumstances, and if it has happened before. Be aware that all parties involved—even the target—may have demonstrated bullying behaviors.*

### **Educate all parties on how devastating bullying/aggression can be to a school’s culture and their role in it**

*It is important that each child understand his/her part in the issue, the impact it had on the other parties and the school/class, and how to avoid causing harm in the future.*

### **Decide whether or not to report the incident to administration.**

*If you can answer “YES” to any one of the following questions, then you are obligated to report the issue to an administrator. It is imperative that we address bullying whenever it is found.*

1. Did someone cause physical or emotional harm to the victim or damage to the victim’s property?
2. Was/is the victim in reasonable fear of harm to him/herself, or of damage to his/her property?
3. Did the actions create a hostile environment for the victim?
4. Did the aggressor infringe on the rights of the victim?
5. Did the action materially and substantially disrupt the education process or the orderly operation school?
6. Are you concerned that this may be an ongoing issue?
7. Are you unsure whether or not you should file?

### **Non-Discrimination**

School staff responsible for implementing this Policy shall do so without discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, disability, age, homelessness, or limited English proficiency.

## **POSITIVE BEHAVIOR INTERVENTIONS AND SUPPORTS FRAMEWORK**

Gardner Public Schools are committed to providing an emotionally and physically safe, supportive learning environment. School rules are based upon fundamental principles that provide clear guidelines for student behavior. As such, GPS uses the principles of **School Wide Positive Behavior Interventions and Supports (SW-PBIS)** as its guiding framework.

**PBIS** is a systematic approach for implementing proactive school wide Discipline. The purpose of PBIS is to improve school climate and prevent student problem behaviors across all school settings. Essential elements of PBIS include: (1) building a culture within the whole school that will serve as a foundation

for both social and academic success, (2) emphasizing early identification and prevention of problem behavior, (3) directly teaching appropriate social skills to all students, and modifying or rearranging the school context when necessary to prevent problem behavior, (4) using a three-tiered continuum of behavior support practices in order to prevent problem behavior, and (5) actively using data for decision-making. PBIS focuses on achieving social and academic achievement outcomes by establishing data, systems, and practices. The underlying theme is teaching behavioral expectations in the same manner as any core curriculum subject with an emphasis on preventative, rather than a reactive, approach to behavior.

Effective implementation of an evidence- based practice requires four interactive elements that enable continuous monitoring, informed decision making and, continuous self enhancement

--	--

- Outcomes: academic and behavior targets that are endorsed and emphasized by students, families, and educators.
- Practices: interventions and strategies that are evidence based.
- Data: information that is used to identify status, need for change, and effects of interventions.
- Systems: supports that are needed to enable the accurate and durable implementation of the practices of SWPBS.

PBIS emphasizes a **preventive** perspective that is conceptualized within a multi-tiered logic. Specifically, a three-tiered approach has been adopted (Lewis & Sugai, 1999; Sugai et al., 2000; Walker et al., 1996).

<b>Primary</b>	Primary Prevention, through positive behavior support, works for over 80% of all students in a given school. However, no intervention works across the board for all students. For a variety of reasons, some students do not respond to the kinds of efforts that make up Primary Prevention, just as some children do not respond to initial teaching of academic subjects. Some children need a more targeted approach and some children need intensive interventions.
<b>Secondary</b>	Secondary Prevention is designed to provide intensive or targeted interventions to support students who are not responding to Primary Prevention efforts. Interventions within Secondary Prevention are more intensive since a smaller number of students requiring services from within the yellow part of the triangle are at risk for engaging in more serious problem behavior and need a little more support. Secondary Prevention addresses the needs of students who require more support than is available for all students and, less support than is available for individual students who need flexible, focused, personalized interventions.

Tertiary	Tertiary Prevention was originally designed to focus on the needs of individuals who exhibited patterns of problem behavior. Research has demonstrated the effectiveness of PBIS in addressing the challenges of behaviors that are dangerous, highly disruptive, and/or impede learning and result in social or educational exclusion. PBIS has been used to support the behavioral adaptation of students (and other individuals) with a wide range of characteristics, including developmental disabilities, autism, emotional and behavioral disorders, and even students with no diagnostic label.
----------	---

By utilizing this data driven system as our organizational framework GPS are able to give staff and students universal clarity about behavioral expectations, A positive environment in which to learn and work and clear consistent support or interventions for non-responders. The integration of this proactive approach to school climate and behavior with effective academic instruction will maximize success for all students.

### **General Principles**

The goal of student discipline is to teach students to behave in ways that contribute to academic achievement and school success, and to support a school environment where students and staff are responsible and respectful. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances. Successful school discipline is guided by the following principles:

- Effective and engaging instruction and classroom management are the foundation of effective discipline.
- School discipline is best accomplished by preventing misbehavior before it occurs, and using effective interventions after it occurs.
- School safety and academic success are formed and strengthened when all school staff and personnel build positive relationships with students.
- School staff should promote high standards of behavior by teaching, modeling, and monitoring behavior, and by fairly and consistently correcting misbehavior as necessary.
- School discipline that is paired with meaningful instruction and guidance offers students an opportunity to learn from their mistakes and contribute to the school community, and is more likely to result in getting the student re-engaged in learning.
- Effective school discipline maximizes the amount of time students spend learning and minimizes the amount of time students are removed from their classrooms due to misbehavior.
- If a situation should arise in which there is no applicable written policy or rule, School staff shall be expected to exercise reasonable and professional judgment.

### **Strategies in Using Interventions**

Teachers and administrators should consider utilizing different types of strategies, or multiple strategies simultaneously, to deal with misbehavior, especially for 2nd or 3<sup>rd</sup> instances of the same misbehavior.

### **Reasonable Consequences**

Students violating any of the policies on student conduct will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. In all instances, school discipline should be reasonable, timely, fair, age-appropriate, and should match the severity of the student's misbehavior.

School staff will make reasonable effort to correct student misbehavior through school-based resources at the lowest possible level, and to support students in learning the skills necessary to enhance a positive school environment and avoid misbehavior. Most of the situations which require disciplinary action can be resolved within

the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

### **CONTINUUM OF DISCIPLINARY CONSEQUENCES**

All teachers are expected to handle minor discipline issues in the classroom in a fair and consistent manner, following the framework of PBIS. Minor issues will not be reported to the office. Minor offenses include those behaviors that do not cause physical harm or disrupt the learning environment. The following is a list of examples of minor offenses.

## MISCELLANEOUS PROCEDURES

### Assemblies

Teachers will lead their classes to and from all assemblies, and remain with their classes during the program. During All School Assemblies, all staff will attend and accompany a classroom teacher as assigned by the principal. This includes Field Day.

### Audio-Visual Equipment and Materials

Teachers are responsible for the proper use, care, and return of all AV equipment and materials. Please report any damaged equipment to the office. Each floor has a smart board, and TV/VCR's for staff and classroom use. Please communicate with each other and reserve their use ahead of time.

### Classrooms

Teachers should make every effort to keep their rooms, and all school property in good condition at all times. Damage to school property should be reported to the Administration as soon as possible. Please make sure that your classroom windows and doors are locked before you leave the building. Teachers will assign each student a locker/cubby, as close as possible to their classrooms. Each student's locker/cubby is to be labeled by student name. Teachers should check lockers/cubbies daily to be sure all items are taken home daily.

### Custodial Care

Please report to the custodial staff any special room cleaning or repair request. Please insist to the students that they pick up after themselves. At the end of each day, the floor should be free of pencils, crayons, or other school tools. Chairs should be stacked or put on top of desks to allow for the floors to be swept.

### Field Trips

**Definition:** A school-sponsored field trip is an excursion of public school students that is organized on school property and/or on school time and/or utilizes school funds or equipment and receives the approval of the Superintendent or his/her designee. School sponsored field trips may be conducted during school or non-school time. The School Committee delegates to the Superintendent authority to approve field trips that are for one day. Field trips can bring the school and community closer together, which can result in real life experiences that enrich the curriculum for students and also bring about better public relations. The committee will also encourage field trips as an integral part of the instructional programs in the schools. In order to control the quality and number of field trips, the following procedures are to be followed:

Teachers who wish to take their students out of the school building must submit a written request to the Principal which contains the following information: date, time leaving and returning, destination, transportation, cost, names of chaperones. The school nurse must also be notified.

### **A form must be submitted to the superintendent for approval of all field trips.**

No student will be allowed to go on a field trip without a valid permission slip. Forms are available on the link below. The Principal and the teacher(s) will determine the final cost of the trip for each student. Here is the link to the Staff Resources Page to complete the field trip form.

<https://www.gardner-ma.gov/872/Staff-Resources>

If there is any problem on the field trip that the supervising teachers do not feel they can handle, they should call the school immediately.

It is the responsibility of the attending teachers to see to it that the affected students receive their appropriate medication.

The teacher planning the trip must submit a statement to the Principal explaining specifically how the field trip supports the curriculum. Overnight, or out of state, field trips must be planned at least 60 days in advance and must be subject to School Committee approval.

A list of students who are going on the trip must be submitted to all teachers at least two weeks before the trip. A teacher may have a student removed from the list if he or she:

- is currently in academic difficulty in the class;
- has been absent more than a reasonable number of days;
- has been a chronic discipline problem

All work missed because of a field trip must be made up promptly according to the school's current make-up policy as stated in the student handbook.

### **Field Trip Transportation**

The use of vans or private automobiles for trips planned to include late night or overnight student travel should be avoided. Such trips should generally use commercial motor coaches.

Trips planned to include late night or overnight student travel should involve DPRE-trip checks of companies, drivers and vehicles. School officials should ensure that the Federal Motor Carrier Safety Administration (FMCSA) licenses the selected carrier for passenger transportation.

The district should not contract with any carrier that has an FMCSA safety rating of "conditional" or "unsatisfactory." FMCSA carrier ratings are available at <http://www.saftersys.org>.

The contract with the carrier should prohibit the use of a subcontractor unless sufficient notice is given to the district to allow verification of the subcontractor's qualifications.

### **Field Trip Scheduling**

Overnight accommodations should be made in advance with student safety and security in mind. Whenever possible, the trip schedulers should avoid planning student travel between the hours of midnight and 6:00 am, due to the increased risk of vehicular accidents during this time period. Whenever possible, overnight trips should be scheduled on weekends or during school vacations to minimize lost classroom time. Non-academic field trips are considered "optional school programs" and do not count toward meeting structured learning time requirements under 603 CMR 27.00. However, academic field trips may be considered structured learning time (see the department's student learning time regulations guide).

School districts may consider travel for field trips as included in students' schedules, but the department recommends that schools consider scheduling additional structured learning time when significant travel time is anticipated (i.e., time outside the hours of the regular school day).

Trip itineraries must leave enough time for drivers to rest in conformity with federal hour-of-service requirements and common sense. Trip scheduling should take into account the likelihood of delays due to weather, traffic, stragglers, and other unanticipated factors. If substantially all members of a class are participating in a trip, the school should provide appropriate substitute activities for any students not participating.

### **Fire Drills/Emergency Evacuation**

The Gardner Fire Department conducts fire drills at regular intervals. Practice in leaving the building will be a planned activity by each teacher during the first week of the school year. Fire escape routes (and alternates) must be posted, and explained on the first day of school. The secretaries will take the school registers outside of the building. Teachers please bring your bags with the clipboards and cards. Teachers must be sure that all of their students are out of the building and accounted for. The elevator is not to be used. Windows and doors should be shut.

As part of our safe school plan, we practice our “Lock Down” drill twice a school year. “Lock Down” signals all students and staff that we have a crisis situation; everyone needs to listen carefully for further instructions, such as specific building evacuation procedures. Do not answer any knocks at the door during a lock-down mode and place the students out of sight from any open windows. Although the likelihood of a crisis scenario is very low, we need to be prepared to deal successfully with it.

### **News Media**

News Media personnel visit the school for many reasons. Their presence in the building is authorized with the permission of the Superintendent or Principal. A designated employee of the district must accompany them. Unauthorized entry by media into the school, interruption of instruction in any manner, or interviewing students without administrative and student approval is prohibited. Such intrusions are to be reported to the administration immediately. During times of school crises, teachers should refer reporters to the Superintendent, school Principal, or their designee for information.

### **Nurse**

Teachers will not allow students to go to the nurse’s office without permission and a pass. This tells the nurse that you are aware of where your student is. If you bring a student to the nurse, do not leave him/her unattended. Notify the office of your situation. All medication given to students during school hours will be under the direction of our nurse. If a student is brought to the nurse during recess, the nurse will notify the classroom teacher.

### **Office Equipment**

Please respect and use with care the copiers, laminating machine, and other equipment we have available. With limited funds we need to make them last. Please keep these areas neat.

### **Parent Nights**

Teachers are required to attend two (2) evening meetings per year. The first meeting is Open House and the second meeting is parent/teacher conferences. Attendance at other evening meetings shall be at the discretion of the individual teachers.

### **Parent Conferences**

Parents have the right to confer with teachers, counselors and administrators at any reasonable time. It is a

teacher's professional obligation to attend meetings when given prior notice. Staff members may ask that other helping professionals, such as another teacher, nurse, counselor or administrator be present. In cases where the parents' language is one other than English, the school shall provide a person fluent in the appropriate language. If anyone other than the parent(s), and the professional are to be present, both parties are to be informed in advance. The appropriate administrator should be consulted if principle parties at a meeting cannot satisfy a specific request. Conferences on student progress are most efficiently arranged through the School Counselor. Teachers should be prepared to provide:

- an explanation of the individual student's grades and test marks;
- copies and samples of the materials, books, worksheets, note-book, and sample of the individual student's work along with the explanation on how the student is progressing;
- an explanation of the homework and/or safety policy;
- an overview of what the student is expected to learn during the year;
- general explanation of class routine, and
- a description of any particular problem the student appears to be experiencing.

Teachers should not make specific inquiries into personal home life unless the parent deems it proper. A productive conference results if both parties clearly state, understand, and carry out what they intend to do to help the student progress.

### **Passes: Signing Out from Class or Study at GHS**

**Never allow a student to leave your class without a pass.** Permission for a student to sign out from a class should be granted only if necessary. Students signing out of classes should be the exception, and not the rule. If a student does sign out of a class, the student is expected back to class within a reasonable amount of time. A corridor pass must be issued to any student leaving a classroom and the student must present the pass to the teacher when returning to class. In addition, students must sign a sign-out sheet when leaving and upon returning to the classroom. Sign out sheets, and passes, will be maintained by teachers. It is the responsibility of the teacher to know where students are during the time that they are assigned to his/her supervision.

### **Sign out to the Library at GHS** (Students wishing to use the library during a study hall must)

- Sign up in your morning advisory to go to the library the next day.
- You will receive your Library Pass during your next morning advisory.
- Report to your class first to present your Library Pass to your teacher. In order to leave class, your classroom teacher must sign the pass. Realize, however, your classroom teacher reserves the right to deny the pass.
- With your signed pass, report directly to the library. No student is admitted without a pass signed by your sending teacher.

### **Sign Out Procedure** (Not for library passes; including a pass to guidance and administration)

- Student must get pass from teacher
- Pass must include date, time, room, and destination, along with the teacher's signature
- Student must sign out of class
- Upon return, pass must be signed, or student must present pass back to teacher

Teachers are expected to exercise professional judgment when issuing passes. In general, passes should be issued only when absolutely necessary. We have 3 minutes passing time in between classes for students to go to lockers and use the bathroom. Students should not be reporting to class and then running to the

bathroom or their locker. It is encouraged that teachers use the **“10-Minute Rule.”** No students should be leaving the classroom for **the first or last ten minutes of class.**

### **Patrols**

Unless they have been dismissed early to the custody of their parent/guardian, **all students will exit the building in an organized, teacher supervised patrol.** Dismissal instructions will come from the principal’s office. Teachers must supervise the orderly dismissal of their students from their room and from their floor. The office will call down grade level classes. Teachers are aware of your dismissal responsibilities and maintain an orderly exit down stairways. Teachers supervising bus patrols will escort them to their buses and assist in their orderly boarding. Dismissal and walkers should also be supervised.

### **Phone/Message System**

Each teacher will have a voice mailbox from which they can retrieve messages and send information (homework hotline, class events). Messages **must** be updated by the teacher on a regular basis. Technical training and assistance will be provided as necessary to improve home/school communications.

An adult must accompany students.

The District also maintains and supports a number of policies that can be located at <http://www.gardnerk12.org/DocumentCenter/Index/372> If you have questions regarding any of these laws or policies, consult your principal. Please pay special attention to the following laws and District Policies:

### **Federal/MGL:**

- Confidentiality
  - It is the law that all employees respect the right to privacy of every student, family, and employee in the Gardner Public Schools. The behaviors, personalities, issues and achievements of students, families, and employees may not be discussed with people outside of the school system. - (g) No mandated reporter shall be liable in any civil or criminal action for filing a report under this section or for contacting local law enforcement authorities or the child advocate, if the report or contact was made in good faith, was not frivolous, and the reporter did not cause the abuse or neglect. Any person filing a report under this section may be liable in a civil or criminal action if the department or a district attorney determines that the person filing the report may have perpetrated or inflicted the abuse or caused the neglect.
- (h) No employer shall discharge, discriminate or retaliate against a mandated reporter who, in good faith, files a report under this section, testifies or is about to testify in any proceeding involving child abuse or neglect. - (i) Within 30 days of receiving a report from a mandated reporter, the department shall notify the mandated reporter, in writing, of its determination of the nature, extent and cause or causes of the injuries to the child and the services that the department intends to provide to the child or the child's family.
- (j) Any privilege relating to confidential communications, established by sections 135 to 135B, inclusive, of chapter 112 or by sections 20A and 20B of chapter 233, shall not prohibit the filing of a report under this section or a care and protection petition under section 24, except that a priest, rabbi, clergy member, ordained or licensed minister, leader of a church or religious body or accredited Christian Science practitioner need not report information solely gained in a confession or similarly confidential communication in other religious faiths. Nothing in the general laws shall modify or limit the duty of a priest, rabbi, clergy member, ordained or licensed minister, leader of a church or religious body or accredited Christian Science practitioner to report suspected child abuse or neglect under this section when the priest, rabbi, clergy member, ordained or licensed minister, leader of a church or religious body or accredited Christian Science practitioner is acting in some other capacity that would otherwise make him a mandated reporter.
- (k) A mandated reporter who is professionally licensed by the commonwealth shall complete training to recognize and report suspected child abuse or neglect.

### **HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES**

To the extent practical and as required by law, the district will work with homeless students and their families to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs, summer programming and school nutrition programs. The district will ensure homeless children are not stigmatized or segregated on the basis of their status as homeless.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing, economic hardship, or similar reason;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings;

## 7. Migratory children living in conditions described in the previous examples.

The term “unaccompanied youth” means a homeless child or youth not in the physical custody of a parent or guardian and not in the custody of a state agency.

The term "school of origin" means the school that the student attended when permanently housed or the school in which the student was last enrolled.

The superintendent shall designate an appropriate staff person to be the district’s liaison for homeless students and their families.

Enrollment:

School districts must immediately enroll homeless students in school to provide educational stability and avoid separation from school for days or weeks even if the child or youth is unable to produce school records normally required for enrollment such as previous academic records, medical records, proof of residency, immunizations, birth certificates, and guardianship documentation. Therefore, the district must ensure that:

- Students who chose to enroll in school where they are temporarily residing must be enrolled immediately, even if they do not bring the records usually required for enrollment with them;
- if a homeless student arrives without records, the previously attended school district is contacted and the required records requested; the district homeless liaison is notified to assist
- that homeless students are attending school while the records are being requested;
- districts remove barriers to homeless students receiving appropriate credit for full or partial coursework satisfactorily completed while attending a prior school;
- information about a homeless student’s living situation shall be treated as a student education record and not be deemed to be directory information and therefore cannot be shared with the public including landlords; and
- Other barriers are removed to enrollment and retention due to outstanding fees or fines, or absences
- For homeless students who meet the relevant eligibility criteria, barriers are removed to accessing academic and extracurricular activities, including magnet schools, summer school, career and technical education, advanced placement, on-line learning, and charter school programs.

If there is an enrollment dispute, the student shall be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute. The parent or guardian shall be informed of the district’s decision and their appeal rights in writing. The district’s liaison will carry out dispute resolution as provided by state rule. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Once the enrollment decision is made, the school shall immediately enroll the student, pursuant to district policies. If the student does not have immediate access to immunization records, the student shall be admitted under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Records from the student’s previous school shall be requested from the previous school pursuant to district policies. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state’s address confidentiality program when necessary

School Placement:

Homeless students have the right to remain enrolled in their school of origin, including the designated receiving school, and receive transportation or immediately enroll in the school district where they are temporarily residing. School placement determinations must be based on the best interest of the homeless student. To the extent feasible, homeless students will continue to be enrolled in their school of origin while they remain homeless or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students and unaccompanied youths may request enrollment in the school in the attendance area in which the student is actually living, or other schools. The district will consider student-centered

factors related to the student's best interest including factors related to the impact of mobility on achievement, education, health, and safety of homeless students, school placement of siblings, giving priority to the request of the parent, guardian, or unaccompanied youth. Attendance rights by living in attendance areas, other student assignment policies, or intra- and inter-district choice options are available to homeless families on the same terms as families resident in the district.

**Transportation:**

Homeless students are entitled to transportation to their school of origin. If the school of origin is in a different district, or a homeless student is living in another district but will attend his or her school of origin in this district, the districts will coordinate the transportation services necessary for the student, or will divide the costs equally. Transportation will be provided through the end of the school year in which a student becomes permanently housed.

**Coordination:**

The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students in schools, family shelters and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students.

# **HEAD INJURIES AND CONCUSSIONS IN EXTRACURRICULAR ATHLETIC ACTIVITIES POLICY**

1 Extracurricular Athletic Activity means an organized school sponsored athletic activity generally occurring outside of school instructional hours under the direction of a coach, athletic director or marching band leader including, but not limited to, Alpine and Nordic skiing and snowboarding, baseball, basketball, cheer leading, cross country track, fencing, field hockey, football, golf, gymnastics, horseback riding, ice hockey, lacrosse, marching band, rifle, rugby, soccer, skating, softball, squash, swimming and diving, tennis, track (indoor and outdoor), ultimate Frisbee, volleyball, water polo, and wrestling. All interscholastic athletics are deemed to be extracurricular athletic activities.

## **INTRODUCTION**

The Gardner Public Schools seeks to prevent concussion, and provide a safe return to activity for all students after injury, particularly after a head injury. In order to effectively and consistently manage these injuries, the Athletic Department abides by the following procedures that have been developed to aid in ensuring that concussed athletes are identified, treated and referred appropriately, receive appropriate follow-up medical care during the school day, including academic assistance, and are fully recovered prior to returning to athletic activity.

### **Section 1: Person Responsible for Implementation of School Policy and Procedures.**

The Gardner School District has designated its Athletic Director to oversee the implementation of policies and protocols governing the prevention and management of sports-related head injuries. In addition, the AD will be responsible for:

- (1) Supporting and enforcing the protocols, documentation, required training and reporting
- (2) Assuring that all documentation is in place
- (3) Reviewing, updating and implementing policy every two years and including updates in annual training and student and parent handbooks.

### **Section 2: Annual Training Requirement.**

The Commonwealth of Massachusetts requires annual safety training on sports related concussion, including second impact syndrome, for coaches, certified athletic trainers, trainers, volunteers, school nurses, school and team physicians, athletic directors, directors responsible for a school marching band whether employed by a school or school district or serving as a volunteer, parent or legal guardian of a child who participates in an extracurricular

athletic activity and student who participates in an extracurricular athletic activity. At the Gardner Public Schools, the above-named school personnel are required to complete free, on-line training (either the National Federation of High Schools or the CDC's Heads Up Concussion training) or attend a training event organized by the athletic department and approved by the Department of Public Health. For student athletes and their parents, this training can be provided in the regular pre-season meetings where written materials are also available. Attendance can be taken at such meetings and the attendance roster serves as a record of verification for participants who are trained. If parents or students are unable to attend this training, they must complete one of the approved on-line trainings and submit a certificate of completion to the athletic director to meet this participation requirement. Alternatively, parents may review DPH-approved written materials (provided by the athletic department) and sign a verification form that they have read and understood these materials.

### **Section 3: Documentation of Physical Exam.**

Each student athlete must have a physical examination on an annual basis, i.e. within 12 or 13 months of the student's last physical examination (to allow for insurance coverage of the examination). Any student athlete who does not have a current physical on file with the nurse prior to the first day of try-outs/practice, is not eligible until a new/updated physical is submitted. If the student's physical examination expires during the sports season, they must have an updated physical examination to continue to participate in the sports season. All physical forms are to be turned in to the nurse, not the coach.

### **Section 4: Pre-Participation Head Injury Reporting Form, Submission and Review.**

#### **Concussion History Form Submission**

The Massachusetts concussion law requires athletes and their parents to inform their coaches about prior head injuries at the beginning of each sports season. This reporting is done via the **Pre-Participation Head Injury/Concussion Reporting for Extracurricular Activities form** and should be completed by the student's parent(s) or legal guardian(s) and the student. It must be submitted to the Athletic Director *prior* to the start of each season a student plans to participate in an extracurricular athletic activity.

**Until the pre-participation form is completed and signed by the parent/guardian and student and returned to the Athletic Director prior to the start of each sports season, the student cannot participate in the extracurricular sports activity.**

### **Section 5: Medical/Nursing Review of Pre-Participation Forms.**

At the start of each sports season, the Athletic Director will review all pre-participation forms and forward to the school nurse those forms indicating a history of head injury. The school nurse will be responsible for:

- reviewing or having the school physician review completed pre-participation forms
- addressing any questions raised by the Athletic Director
- communicating with the coach regarding the student's concussion history and discussing concerns
- following up with parents and students as needed prior to the student's participation in extracurricular athletic activities.

### **Section 6: Medical/Nursing Review of Reports of Head Injury During the Season**

The following procedures will be followed when an athlete receives a head injury:

- Athlete is removed from the contest or practice.
- Coach completes the **Report of Head Injury During Sports Season Form**
- The Coach will give **Report of Head Injury During Sports Season Form** to Athletic Director.
- Athletic Director will notify school nurse who will review the Report of Head Injury form.
- School nurse will contact athlete's teachers, guidance counselor, and principal.

### **Section 7: Procedure for Reporting Head Injuries to School Nurse and/or Certified Athletic Trainer Reporting Head Injury**

Head injuries or suspected concussions (after a bump, blow or jolt to the head or body) sustained during extracurricular athletic activities must be reported by the coach as soon as possible to the school nurse and the athletic director.

**Athletes who experience signs or symptoms of a concussion should not be allowed to return to play.**

### **Section 8: Removing Athletes from Play and Medical Evaluation.**

#### **Identifying Head Injury or Suspected Head Injury and Removing from Play**

In the event that a student athlete receives a head injury, or is suspected of having a head injury, the student will be removed from play and will not be returned to play or practice that day. The coach should report the head injury to the athletic director or school nurse, if available, as soon as possible, for medical assessment and management and for coordination of home instructions and follow-up care. The athletic director or school nurse will be responsible for contacting the athlete's parents and providing follow-up instructions. If the athlete is injured at an away event or if the athletic director or school nurse is unavailable, the coaching staff are responsible for notifying the athlete's parents of the injury and, if warranted, call for emergency care. Coaches should seek assistance from the host site athletic trainer, coach or school nurse if at an away contest.

If the athlete is able to be sent home (rather than directly to MD):

- a. the coach or athletic director will ensure that the athlete will be with a responsible adult, who is capable of monitoring the athlete and understanding the home care instructions, before allowing the athlete to go home;
- b. the coach or athletic director will continue efforts to reach the parents;
- c. if there is any question about the status of the athlete, or if the athlete is not able to be monitored appropriately, the athlete will be referred to the emergency department for evaluation. A coach or athletic director will accompany the athlete and remain with the athlete until the parents arrive, and
- d. athletes with suspected head injuries will not be allowed to drive home.

### **Section 9: Medical Clearance for Return to Play**

The school physician, if available, should be involved. **Medical clearance is meant to be provided AFTER a student has completed his or her graduated return to play plan.**

The medical provider giving medical clearance for returning to play must use the MDPH Medical Clearance Form, **"Post Sports-Related Head Injury Medical Clearance and Authorization Form"** available on the MDPH website ([www.mass.gov/dph/injury](http://www.mass.gov/dph/injury)). The Medical Clearance Form contains more detailed information than a simple statement that the student is ready to return to athletics. This additional information is necessary as school staff monitor the student returning from a concussion. Athletic staff may consider providing this form to the athlete to share with the physician. The completed forms should be kept in the student's medical record in the school health office as well as athletic department office.

### **Section 10: Development and Implementation of Post Concussion Graduated Reentry Plans.**

It is required that all students returning to school and athletics after a concussion have a written plan for reentry. School staff, such as teachers, school nurses, counselors, administrators, speech-language pathologists, coaches and others should work together to develop and implement this plan in coordination with the student, their parent/guardian and the primary care provider. Graduated return to academic plans are based on the stages of recovery framework that takes a student from rest, to gradual return to full participation in academic activities.

#### **Stages of Recovery: 2**

The stages of recovery are a framework designed through a collaborative effort by health care professionals. The purpose of this framework is to create common language that will help guide students, families, school personnel and health professionals through the recuperation process. Placement in stages is based on assessment of the student's medical condition by a licensed medical professional and accompanied by written orders.

**Red Stage** (Usually 2 – 4 days, but could last weeks)

1. Rest
2. Students typically do not attend school

**Orange Stage**

1. Rest
2. Attend school half to full days
3. Avoid school bus and heavy backpacks

## PHYSICAL RESTRAINT POLICY AND PROCEDURES

Physical restraint shall mean direct physical contact that prevents or significantly restricts a student's freedom of movement. Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, providing comfort, or a physical escort.

Physical restraint shall be considered an emergency procedure of last resort and shall only be used when a student's behavior poses a threat of assault, or imminent, serious, physical harm to self or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions, or such interventions are deemed to be inappropriate under the circumstances.

In the event that physical restraint is required to protect the safety of school community members, the Gardner School District has enacted the following policy and procedures to ensure the proper use of restraint and to prevent or minimize any harm to the student as a result of the use of restraint.

The use of time-out is a behavior support strategy in which a student temporarily separates from the learning activity or the classroom either by choice or direction from staff, for the purpose of calming. During a time-out the student must be continuously observed by a staff member. Staff shall be with the student or immediately available to the student at all times. The space used for time-outs must be clean, safe, sanitary, and appropriate for the purposes of calming. Time-out shall cease as soon as the student has calmed. The Staff will seek the principal's approval should a student require a time-out lasting more than 30 minutes due to continued agitation.

These procedures shall be annually reviewed, provided to school staff, and made available to parents of enrolled students.

**NOTE:** None of the foregoing paragraph or the policy/procedures that follow, precludes any teacher, employee or agent of the Gardner School District from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

### I. Interventions and Alternative Methods that May Preclude the Need for the Use of Physical Restraint

The District has developed and implemented specific procedures regarding appropriate responses to student behavior that may require immediate intervention. There are a variety of appropriate responses to student behavior that may require immediate intervention. These alternative methods should be used first when seeking to prevent student violence, self-injurious behavior and, suicide, including individual crisis planning or de-escalating potentially dangerous behavior occurring among groups of students or with an individual student. Physical restraints only should be used in emergency situations after these other less intrusive alternatives have failed or been deemed inappropriate.

#### A. Building Level Supports

Each Building has staff identified as members of a crisis team that are trained in Crisis Prevention Intervention

(CPI). School personnel will identify students who are potentially at-risk and review student social, emotional and behavior progress at the Student Support Team Meeting (SST) to plan interventions and supports for students. For any student with a history of significant emotional/ behavior including at risk behavior (harm to self and/or others) and/or a student who required a physical restraint, the Team should develop a safety or crisis plan. The plan should include strategies and supports which may include specific de-escalation strategies, counseling services, monitoring protocol, data collection, and frequent review meetings for the purpose of assessing progress and making necessary adjustments. Teams can request a functional behavioral assessment (FBA) or Safety Assessment and can refer to outside agencies. The Crisis Team could be a subgroup of the SST. Please refer to the District Accommodation Plan (DCAP) for a list of other programs such as Positive Behavior Interventions and Supports (PBIS), PATHS Curriculum, Zones of Regulation, Social Thinking Curriculum, and Restorative Justice Practices.

B. Examples of interventions and less intrusive methods that may preclude the need for the use of physical restraint, include, but are not limited to, the following:

1. Active listening
2. Use of a low non-threatening voice
3. Limiting the number of adults providing direction to the student
4. Offering the student a choice
5. Not blocking the student's access to an escape route
6. Suggesting possible resolutions to the student
7. Avoiding dramatic gestures (waiving arms, pointing, blocking motions, etc.)
8. Verbal Directives- A verbal directive is communicating what is expected behavior by clearly stating instructions and expectations.
9. Brief Physical Contact- Physical restraint does not include: brief physical contact to promote student safety, providing physical guidance or prompting when teaching a skill, redirecting attention, and providing comfort. Such brief physical contact is an alternative to physical restraint.
10. Removals- Removals are used only when it is necessary to move a child a few feet in order to hold them to safer position. Removal includes removal of a student from a classroom for in situations where behavior can escalate other student, creating a less safe situation. Removals are only for a short distance, i.e. out of the classroom to the hallway.
11. Physical Escort- Physical escort is a temporary touching or holding, without the use of force, of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is agitated to walk to a safe location.
12. Time-Out- Time-out is a behavioral support strategy in which a student temporarily separates from the learning activity or the classroom, either by choice or by direction from program staff, for the purpose of calming. During time-out, a student must be continuously observed by a staff member. Program staff shall be with the student or immediately available to the student at all times. The space used for time-out must be clean, safe, sanitary, and appropriate for the purpose of calming. Time-out will cease as soon as the student has calmed. Principal approval is required for a time-out of more than thirty (30) minutes based on an individual student's continuing agitation.

C. General guidelines for de-escalating potentially dangerous behavior occurring among groups of students or with an individual student include the following:

1. Remain Calm - To possibly help prevent the likelihood of a student experiencing distress from escalating his/her behavior use a neutral and level tone of voice, control one's facial expressions and use a supportive non-threatening body language.
2. Obtain Assistance – Whenever possible, school personnel should immediately take steps to notify school administrators, the school's administrative response team and/or other school personnel of a potentially dangerous situation and to obtain additional assistance.
3. One Person Speaks - In order to minimize the likelihood of confusion and/or the likelihood of a student experiencing distress from escalating his/her behavior having one person providing overall direction to the response and the follow up procedures is advisable. This often may be either the first trained staff person on the scene or the staff person with the most information about the particular situation.

4. Remove Student If Possible – The feasibility of having a student experiencing distress leave an area with other students and move to another more private and safe area in order to de-escalate should be considered.
5. Remove Other Students – If it is not feasible to have a student experiencing distress move to a more private and safe area in order to de-escalate, consider the feasibility of having other staff assist and monitor the removal of other students to another area within the school until the student de-escalates.

D. Description of physical restraints used in emergency situations:

In an emergency situation, school staff are to act in a manner to ensure the safety of the individual as well as other students and personnel. The school staff responding to the emergency situation, should adhere to the requirements of the Gardner Public Schools Physical Restraint Policy and these administrative guidelines and only use a physical restraint as a last resort and with extreme caution **AFTER OTHER LAWFUL AND LESS INTRUSIVE ALTERNATIVES HAVE FAILED OR BEEN DEEMED INAPPROPRIATE**. In other words, staff should first attempt to verbally redirect the student. If this does not stop or prevent the student from danger, the staff member should attempt to block the student by taking a supportive stance first to prevent them from entering any dangerous situation, such as running into the street or jumping from a high place. If the individual is unable to be blocked; the staff member should then administer or attempt to hold the student from danger until emergency assistance or help arrives. This includes, but is not limited to, any one of the approved CPI positions.

II. Methods to Engage Parents in Discussions about Restraint Prevention and the Use of Restraint Solely as an Emergency Measure

All families and students are provided with information about behavioral supports and restraint prevention efforts through the Student/Parent Handbook. Additionally, principals are expected to follow these administrative procedures with respect to identifying students who may be at risk of restraint and work with the student and their family along with school counselors/related staff to identify and work on behavioral supports to prevent restraint from occurring. If a student is restrained, principals are expected to follow these administrative procedures with respect to engaging the student and their family about the use of the restraint, the report regarding the restraint, any disciplinary sanctions that may be imposed and/or any other related matters. Additionally, the school counselors should follow up with the student and their family regarding behavioral supports as needed.

III. Staff Training

A. All staff/faculty will receive training regarding the school’s restraint policy within the first month of each school year, and employees hired after the school year begins will receive training within one month of starting their employment. Each principal or director shall determine a time and method to provide all program staff with training regarding the program’s restraint prevention and behavior support policy and requirements when restraint is used

B. Required training for all staff will include review of the following:

1. The program's restraint prevention and behavior support policy and procedures, including use of time-out as a behavior support strategy distinct from seclusion;
2. Interventions which may preclude the need for restraint, including de-escalation of problematic behaviors; and other alternatives to restraint in emergency circumstances;
3. Types of restraints and related safety considerations, including information regarding the increased risk of injury to a student when any restraint is used; in particular a restraint of extended duration;
4. Administering physical restraint in accordance with known medical or psychological limitations known or suspected trauma history, and/or behavioral intervention plans applicable to an individual student; and
5. Identification of program staff who have received in-depth training (as set forth below in section C) in the use of physical restraint.
6. The role of the student, family, and staff in preventing restraint

C. Designated staff members shall participate in at least sixteen hours of in-depth training in the use of physical restraint, with at least one refresher training occurring annually thereafter

1. At the beginning of the school year, the principal will identify those staff who will participate in in-depth training and who will then be authorized to serve as school-wide resources to assist in ensuring proper administration of physical restraint.
2. In-depth training will include:
  - a) Appropriate procedures for preventing the need for physical restraint, including the de-escalation of problematic behavior, relationship building, and use of alternatives to restraint.
  - b) A description and identification of specific dangerous behaviors on the part of a student that may indicate the need for physical restraint and methods for evaluating the risk of harm in individual situations in order to determine whether the use of restraint is warranted;
  - c) The simulated experience of administering and receiving physical restraint, instruction regarding the effect(s) on the person restrained, including instruction on monitoring physical signs of distress and obtaining medical assistance;
  - d) Instruction regarding documentation and reporting requirements and investigation of injuries and complaints; and
  - e) Demonstration by participants of proficiency in administering physical restraint; and
  - f) Instruction regarding the impact of physical restraint on the student and family, recognizing the act of restraint has impact, including but not limited to psychological, physiological, and social-emotional effects

D. Staff/faculty will review any behavior plans pertaining to special techniques for identified students.

E. Staff/ faculty will review the uses of time-out as a behavioral strategy for applicable programs. Staff/faculty will review the program procedure for obtaining principal approval of time-out for more than 30 minutes based upon a student's continuing agitation.

#### IV. Administration of Physical Restraint

A. Physical restraint shall be used only in emergency situations of last resort, after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution. Staff will use physical restraint with two goals in mind:

1. To administer a physical restraint only when needed to protect a student and/or a member of the school community from assault or imminent, serious, physical harm; and
2. To prevent or minimize any harm to the student as a result of the use of physical restraint. Physical restraint is prohibited in the following circumstances:
  - a. As a means of discipline or punishment;
  - b. As a response to property destruction, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious, physical harm. However, if the property destruction or the refusal to comply with a school rule or staff directive could escalate into, or could itself lead to serious, imminent harm to the student or to others, physical restraint is appropriate.
  - c. As a standard response for any individual student. No written behavior plan or individualized education program (IEP) may include use of physical restraint as a standard response to any behavior
  - d. When the student cannot be safely restrained because it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting

B. Only school personnel who have received required training or in-depth training pursuant to this policy shall

administer physical restraint on students with, whenever possible, one adult witness who does not participate in the restraint. The training requirements, however, shall not preclude a teacher, employee or agent of the school from using reasonable force to protect students, other persons or themselves from assault or imminent, serious, physical harm.

- C. Physical restraint shall be limited to the amount of force necessary to protect a student or others from, physical injury or harm.
- D. A person administering physical restraint shall use the safest method available and appropriate to the situation. Restraints, including prone restraints otherwise permitted under 603 CMR 46.03(1)(b) may only be administered by a staff member who has received in-depth training as specified in this policy and, when in the judgment of the trained staff member, such method is required to provide safety for the student or others.
- E. Physical restraint shall be discontinued as soon as the student is no longer an immediate danger to himself or others, or the student indicates that he or she cannot breathe, or if the student is observed to be in severe distress, such as having difficulty breathing, or sustained or prolonged crying or coughing.
- F. Additional safety requirements:
  - 1. No restraint shall be administered in such a way that the student is prevented from breathing or speaking. A staff member will continuously monitor the physical status of the student, including skin temperature color and respiration, during the restraint.
  - 2. If at any time during a physical restraint the student expresses or demonstrates significant physical distress, including but not limited to, difficulty breathing, the student shall be released from the restraint immediately, and school staff shall take steps to seek medical assistance.
  - 3. Program staff shall review and consider any known medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans regarding the use of physical restraint on an individual student.
  - 4. If a student is restrained for a period longer than 20 minutes, staff shall obtain the approval of administration. The approval shall be based upon the student's continued agitation during the restraint justifying the need for continued restraint.
- G. At an appropriate time after release of a student from physical restraint, a school administrator or other appropriate school staff shall:
  - 1. Review the incident with the student to address the behavior that precipitated the restraint;
  - 2. Review the incident with the staff person(s) who administered the restraint to discuss whether proper restraint procedures were followed; and
  - 3. Consider whether any follow-up is appropriate for students who witnessed the incident.

#### V. Restraints Prohibited

A. Medication restraint – the administration of medication for the purpose of temporarily controlling behavior.– is prohibited unless prescribed by a licensed physician and authorized in writing by the parent for administration in the school setting.

B. Mechanical restraint – the use of any device or equipment to restrict a student's freedom of This does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional, and are used for the specific and approved positioning or protective purposes for which such devices were designed. Examples of such devices include: adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of the device or mechanical supports; vehicle safety restraints

when used as intended during the transport of a student in a moving vehicle; restraints for medical immobilization; or orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

C. Seclusion restraint - the involuntary confining a student alone in a room or area from which the student is physically prevented from leaving without access to school staff is prohibited.

D. Prone restraint- a physical restraint in which a student is placed face down on the floor or another surface, and physical pressure is applied to the student's body to keep the student in the face down position is prohibited except under the following circumstances:

1. The student has a documented history of repeatedly causing serious self-injuries and/or injuries to other students or staff;
2. All other forms of physical restraints have failed to ensure the safety of the student and/or the safety of others;
3. There are no medical contraindications as documented by a licensed physician;
4. There is psychological or behavioral justification for the use of prone restraint and there are no psychological or behavioral contraindications, as documented by a licensed mental health professional;
5. The program has obtained consent to use prone restraint in an emergency as set out in 603 CMR 46.03(1)(b), and such use has been approved in writing by the principal; and,
6. The program has documented 603 CMR 46.03(1)(b) 1 - 5 in advance of the use of prone restraint and maintains the documentation.

E. The use of "time out" procedures during which a staff member remains accessible to the student, and the student is continuously observed by a staff member shall not be considered "seclusion restraint.

#### VI. Reporting Requirements

A. Staff will report any incidence of physical restraint to their building administrator. Program staff shall provide a written report no later than the next school working day to their building administrator after administration of a physical restraint.

B. The staff member who administered such a restraint shall verbally inform the principal of the restraint as soon as possible and by written report no later than the next school working day.

1. The written report shall be provided to the principal or his/her designee, except the principal shall prepare the report if the principal administered the restraint;
2. The principal or his/her designee shall maintain an on-going record of all reported instances of physical restraint, which shall be made available for review by the parent or the Department of Education, upon request.

C. The principal or his/her designee shall verbally inform the student's parent(s)/guardian(s) of such restraint as soon as possible and within 24 hours of the restraint, and by written report postmarked no later than three school working days following the use of such restraint or to an email address provided by the parent for communication about the student.

2. If the school customarily provides school-related information to the parent(s)/guardian(s) in a language other than English, the written restraint report shall be provided in that language.
3. The school will provide the student and the parent an opportunity to comment orally and in writing on the use of the restraint and on information in the written report.

D. The written report required by both sections B and C above shall include:

10. Information regarding opportunities for the student's parent(s)/guardian(s) to discuss with school officials the administration of the restraint, any disciplinary sanctions, and/or other related matters.

E. Individual student review. The principal shall conduct a weekly review of restraint data to identify students who have been restrained multiple times during the week. If such students are identified, the principal shall convene one or more review teams as the principal deems appropriate to assess each student's progress and needs. The assessment shall include at least the following:

1. Review and discussion of the written reports submitted in accordance with 603 CMR 46.06 and any comments provided by the student and parent about such reports and the use of the restraints;
2. Analysis of the circumstances leading up to each restraint, including factors such as time of day, day of the week, antecedent events, and individuals involved;

4. Agreement on a written plan of action by the program.

F. If the principal directly participated in the restraint, a duly qualified individual designated by the superintendent shall lead the review team's discussion. The principal shall ensure that a record of each individual student review is maintained and made available for review by the Department or the parent, upon request.

1. Administrative review. The principal shall conduct a monthly review of school-wide restraint data. This review shall consider patterns of use of restraints by similarities in the time of day, day of the week, or individuals involved; the number and duration of physical restraints school-wide and for individual students; the duration of restraints; and the number and type of injuries, if any, resulting from the use of restraint. The principal shall determine whether it is necessary or appropriate to modify the school's restraint prevention and management policy, conduct additional staff training on restraint reduction/prevention strategies, such as training on positive behavioral interventions and supports, or take such other action as necessary or appropriate to reduce or eliminate restraints.
2. Report all restraint related injuries to the Department of Secondary and Elementary Education (DESE). When a physical restraint has resulted in an injury to a student or program staff member, the program shall send a copy of the written report required to the Department postmarked no later than three school working days of the administration of the restraint. ## 4. Reimbursement Procedure

Massachusetts General Law (MGL c41,s56) stipulates that authorization to expend public funds shall be given only after an examination to determine that the charges are correct, and that the services charged for were rendered. Reimbursement is compensation for money already spent. The School District will reimburse only for those authorized expenses for which adequate documentation of payment can be provided.

### A. Requirements

- Purchase orders **must** be approved first, before making purchases.
- All requests for reimbursement shall be made using a PO and shall be signed and dated by the person seeking reimbursement.
- All purchases that need to be reimbursed **must** be made as a separate order from personal purchases.
- Reimbursement is for purchases where POs will not be accepted, or items cannot be purchased elsewhere, or in cases of emergencies.
- **PLEASE NOTE: ALL REQUESTS FOR REIMBURSEMENT MUST BE SUBMITTED BY THE LAST DAY OF THE MONTH FOLLOWING THE DATE THE EXPENSE WAS INCURRED.** No expenses will be reimbursed after that period.
- For reimbursement of expenses, the required documentation for proof of purchase is as follows:

### B. Paid by cash, debit or credit card

- An **original, detailed** receipt provided by the vendor which includes the name of the vendor, the date of purchase, a description of the goods purchased and the amount expended marked paid in full or showing a zero balance.
- A photocopy of the card or bank credit card statement used to make the purchase (last 4 digits and last name); required once a year.

### C. Paid by mail with a check

- The original of the invoice paid
- A copy of the front and back of the cancelled check (showing the employee's name as the account holder). If your bank does not return cancelled checks to you and, instead, sends you a photocopy of the cancelled checks as part of your bank statement that is sufficient.

## Travel Reimbursement

In addition to the general reimbursement procedures, all personnel shall follow the travel documentation and approval procedures as established by the Business Manager. Failure to follow said procedures may jeopardize subsequent travel and/or reimbursements. To insure compliance with these requirements all procedural clarifications must be obtained by contacting the Business Office prior to travel.

**PLEASE NOTE: ALL REQUESTS FOR REIMBURSEMENT MUST BE SUBMITTED BY THE LAST DAY OF THE MONTH FOLLOWING THE DATE THE EXPENSE WAS INCURRED. No expenses will be reimbursed after that period.**

To comply with audit requirements all funds appropriated for employee travel require proper documentation to support the expenditure. The following shall be a guide for determining what documentation is required and how/when it should be submitted to the Business Office:

- I. Mileage reimbursement for travel to conferences, workshops, out of district meetings - Staff must generate a purchase order up front, before the travel date. For staff whose responsibilities require travel out of district, it is necessary that they use the School Department's Request for Reimbursement form to record the date, destination and mileage. The mileage indicated must be supported by a Mapquest or GoogleMaps printout showing the mileage to the destination. This Request for Reimbursement form should be turned in monthly for reimbursement. If there are tolls or parking charges they should be recorded and receipts must be attached.
- II. Expense reimbursements for out of district travel and conferences (\*\*registration fees, lodging, meals, transportation, etc.) - Staff must generate a purchase requisition up front, before the expense is incurred, that estimates the reimbursement for each type of expense. After the requisition is entered by the school secretary and administrative approval by the Principal, the requisition is forwarded to the Business Office for processing. Upon final approval the Business Office will return the blue PO copy.

Actual appropriate expenses as they occur should be recorded on the Request for Reimbursement form. Note: Receipts are necessary and should be attached to the Request for Reimbursement form which must be turned into the Business Office immediately upon return.

## **II. Request for Reimbursement Documentation (Out of District Travel and Conferences)**

**Original detailed** receipts **must** always be obtained – Reimbursements cannot be processed without proper receipts. Acceptable receipts include hotel billings, parking lot receipts, toll booth receipts, conference agendas (fee schedule), canceled checks, restaurant receipts, and credit card billings, etc. Note: Reimbursement requests must exclude personal telephone calls, alcoholic beverages, personal items and other non-business entertainment expenses which are not reimbursable. These exclusions must be on a separate receipt.

## **III. Meals**

Original detailed receipts for meals **must** be obtained. A detailed account of expenses shall be made on the appropriate lines of the Request for Reimbursement form. (Breakfast, Lunch, Dinner). Meal reimbursement will be held to a maximum of \$59 /day (FY17 Federal Per Diem Rate). Reimbursement requests are to be based on actual expenditures which may differ from the established rates.

**a. Rate Guideline (Estimated):      Breakfast - \$13.00    Lunch - \$15.00    Dinner \$31.00**

Reimbursement can be provided for special conference meals whose cost is higher than the maximum stated if documentation (receipt or copy of appropriate section of conference program) is supplied. Meals are generally not reimbursable for partial day events (five hours or less) within driving range unless the cost is included in the registration fee and cannot be separated out. For overnight travel, the per diem cap for the first and last day of travel will be 75% of the regular per diem cap.

## **TEACHER DISCLAIMER and GUIDANCE FOR VIRTUAL LEARNING**

The Gardner Public Schools (GPS) is committed to providing our students with services and supports during periods of remote learning. To that end, we are providing virtual sessions. The services and supports proposed may be held individually, in a small-group or a classroom virtual setting, which means it will be accessible to school staff, students, and parents/guardians who are provided a link to the virtual session. We will strive to limit the disclosure of confidential student information but the nature of these virtual services and supports means that they will be provided in the virtual presence of other participants, including the parents/guardians of other students, and we cannot ensure student privacy.

In an effort to protect the safety and confidentiality of our students and families, we ask that teachers and staff members agree, and adhere to the following expectations in virtual sessions (including those provided individually or in a group):

- Teachers/staff members acknowledge other participants in the virtual sessions will see whatever is visible by the participants' webcam or other device, including but not limited to themselves; and if instruction is provided remotely outside the school setting, their children, and portions of their homes. Likewise, participants acknowledge that they will see whatever is broadcasted by other participants. Participants, when working remotely from home, agree to participate in these virtual sessions in a quiet, private area free of distraction, to the extent practicable, to provide an environment conducive to learning and to protect student privacy.
- Teachers/staff members agree not to disclose information about any other participant in the virtual session.
- Teachers/staff members agree not to record in any way (e.g., video or audio recording, screenshots, or photographs) the virtual services or supports unless otherwise agreed to in advance. *See Parent/Student Disclaimer* (GPS Parent/Student Handbook). Students participation in live lessons indicate parent and student agreement to the GPS disclaimer.
  - *Participants understand and agree that recording and/or dissemination of a student's or staff member's voice and/or image is a serious school rule violation. In the case of unauthorized recording of a student or staff member's voice without consent, teachers/staff members, also understand that such recording and/or dissemination of such unauthorized audio recording, could result in a report to law enforcement and the potential issuance of criminal charges, See M.G.L. c. 272.99.*
- Teachers/staff members understand that pertinent district policies and rules, including but not limited to those prohibiting cyberbullying and any acceptable use policies, apply during virtual sessions.
- Teachers/staff members will inform administration regarding any student that violates these rules or is not acting appropriately.
