Thank you for the introduction Mike and nice to meet you Dane (dropping mike to BCC so he doesn't get a ton of emails).

Yes we had a waterline break on Christmas eve at 25 Main st in Gardner and didn't find out about it until Monday morning. So we had ALOT of water pouring into the building for a couple of days and was not going through the sewer system. If this is something that would make sense to ask for abatement on we would certainly like to do so and would appreciate any help or guidance to get it in front of the right people.

Best,
Jon

Hi Jon,

Please write me an email explaining what happened and I will ask the Public Service Committee to have your issue put on the agenda.

We do not have a date and time for the next meeting, but it may be next week. You would need to come to the meeting at the DPW and make your case to the PSC. I will notify you when we have a schedule but send me the appeal ASAP.

Typically, the water portion won't be reduced, but if the water didn't enter the sewer system, then might reduce that portion.

Thank You,

Hi Dane,

Jon Bombaci who owns 25 Main Street is copied on this email.

They had a substantial pipe break issue from 12/25 – a few days after.

Can you walk him through the abatement process?

REPORTS FROM DEPARTMENT HEADS

Dane Arnold:

Packet was provided regarding sump pump issue on Cross Street at dental office. Letter was sent on 11/28/22 to owner of property at 49 Cross Street. States issue with sump pumps occurs approximately 10 x's a year in city.

Councilor Walsh mentions same issue with Car Wash on end of Elm Street. Dane states DPW treats that area in particular a bit heavier in the winter.

Councilor Walsh inquires on salt shed. Dane, currently working with Mayor.

Dane, currently in Robillard area paving. Sidewalks have been base coated. Driveways & walks will be finished. Sidewalks will be completed in the spring.

Also, visited landfill in Bellow Falls VT yesterday. Their WWTF facility is about a 1/10 the size of ours. We observed their processing of sludge. They burn it down to 85-90% dry for placement at landfill, also giving it to farmers at this point. Looking into possibility of utilizing this process.

Rob Oliva:

To begin installation of skating rink in a day or two. Will erect string LED lights to run off a generator.

Finance approved funding yesterday for new lights at Timpany, Main, Willow & Dyer. Will operate off sensors now rather than timers. This action was prompted by Darrell Sweeney, Inspector of Wires, to update systems. Timers will remain in place as backup.

Met with Chris Coughlin and Mayor regarding possibility of solar panels at city facilities. Seems our cold storage building would be prime candidate with that of a south facing roof. A goal would be to have solar at WWTF. In early stages of reviewing possibilities.

Sophie Dorow:

Conservation Commission voted in favor of sludge landfill expansion. No appeals received at this time.
