- Questions & Discussion

**WHAT HAS BEEN DONE
SO FAR**

WHAT HAS BEEN DONE SO FAR

- 2011 –Urban Renewal Plan
- 2012 – Urban Renewal Plan, Mill Street Corridor
- 2022 – District Increment Financing Feasibility Analysis
 - Found DIF would generate funds to offset public investment
- 2023 (ongoing) – Phase 2 of the DIF analysis
 - Refine assumptions
 - Create DIF Master Plan

WHAT IS DIF?

WHAT IS DISTRICT IMPROVEMENT FINANCING (DIF)?

- Financing method to **catalyze economic development**
- Allows some or all of future property tax revenues from development to be dedicated to support infrastructure, projects, and programs related economic development
- Property tax increment can be used to help finance public development costs
- Portion of incremental revenues not dedicated for DIF can be transferred to General Fund and once DIF expires, all revenues go to general fund

It is ***not*** a new tax or a special assessment on top of the existing property tax.

It ***is*** a tool that enables a community to identify and capture tax revenue from new private investment that has been *catalyzed* by public investment.

KEY DIF TERMS

Development District

A specified area within the corporate limits of a city or town which is to be developed by the municipality under a Development Program. Also referred to as a **DIF District**.

Development Program

A statement of means and objectives designed to improve the quality of life, the physical facilities and structures and the quality of pedestrian and vehicular traffic control and transportation within a Development District.

New Growth

Increases to the assessed value of a property, as a result of development or other changes.

New Growth generates new tax revenue and enables you to raise your tax levy limit.

Tax Increment Revenue

All annual increases in the municipality's limit on total taxes assessed that are attributable to parcels within the DIF District.

Tax Increment Revenue is additional revenue that is collected because of New Growth in the DIF District.

WHAT DIF DOES

- Establishes the Original Assessed Value of the District,
- Measures New Growth each year and the cumulative increases, or Tax Increment
- Calculates and captures revenues from the Tax Increment

Mechanics of DIF

1. Identify a district
2. Identify public projects and estimated costs
3. Estimate revenues from increased assessed values from new private investment
4. Make policy choices on revenue capture, capital plan, duration of district
5. Adopt through local process
6. Manage over time: identify, collect, and spend revenues, complete public projects

HOW DIF PAYS FOR ECONOMIC DEVELOPMENT

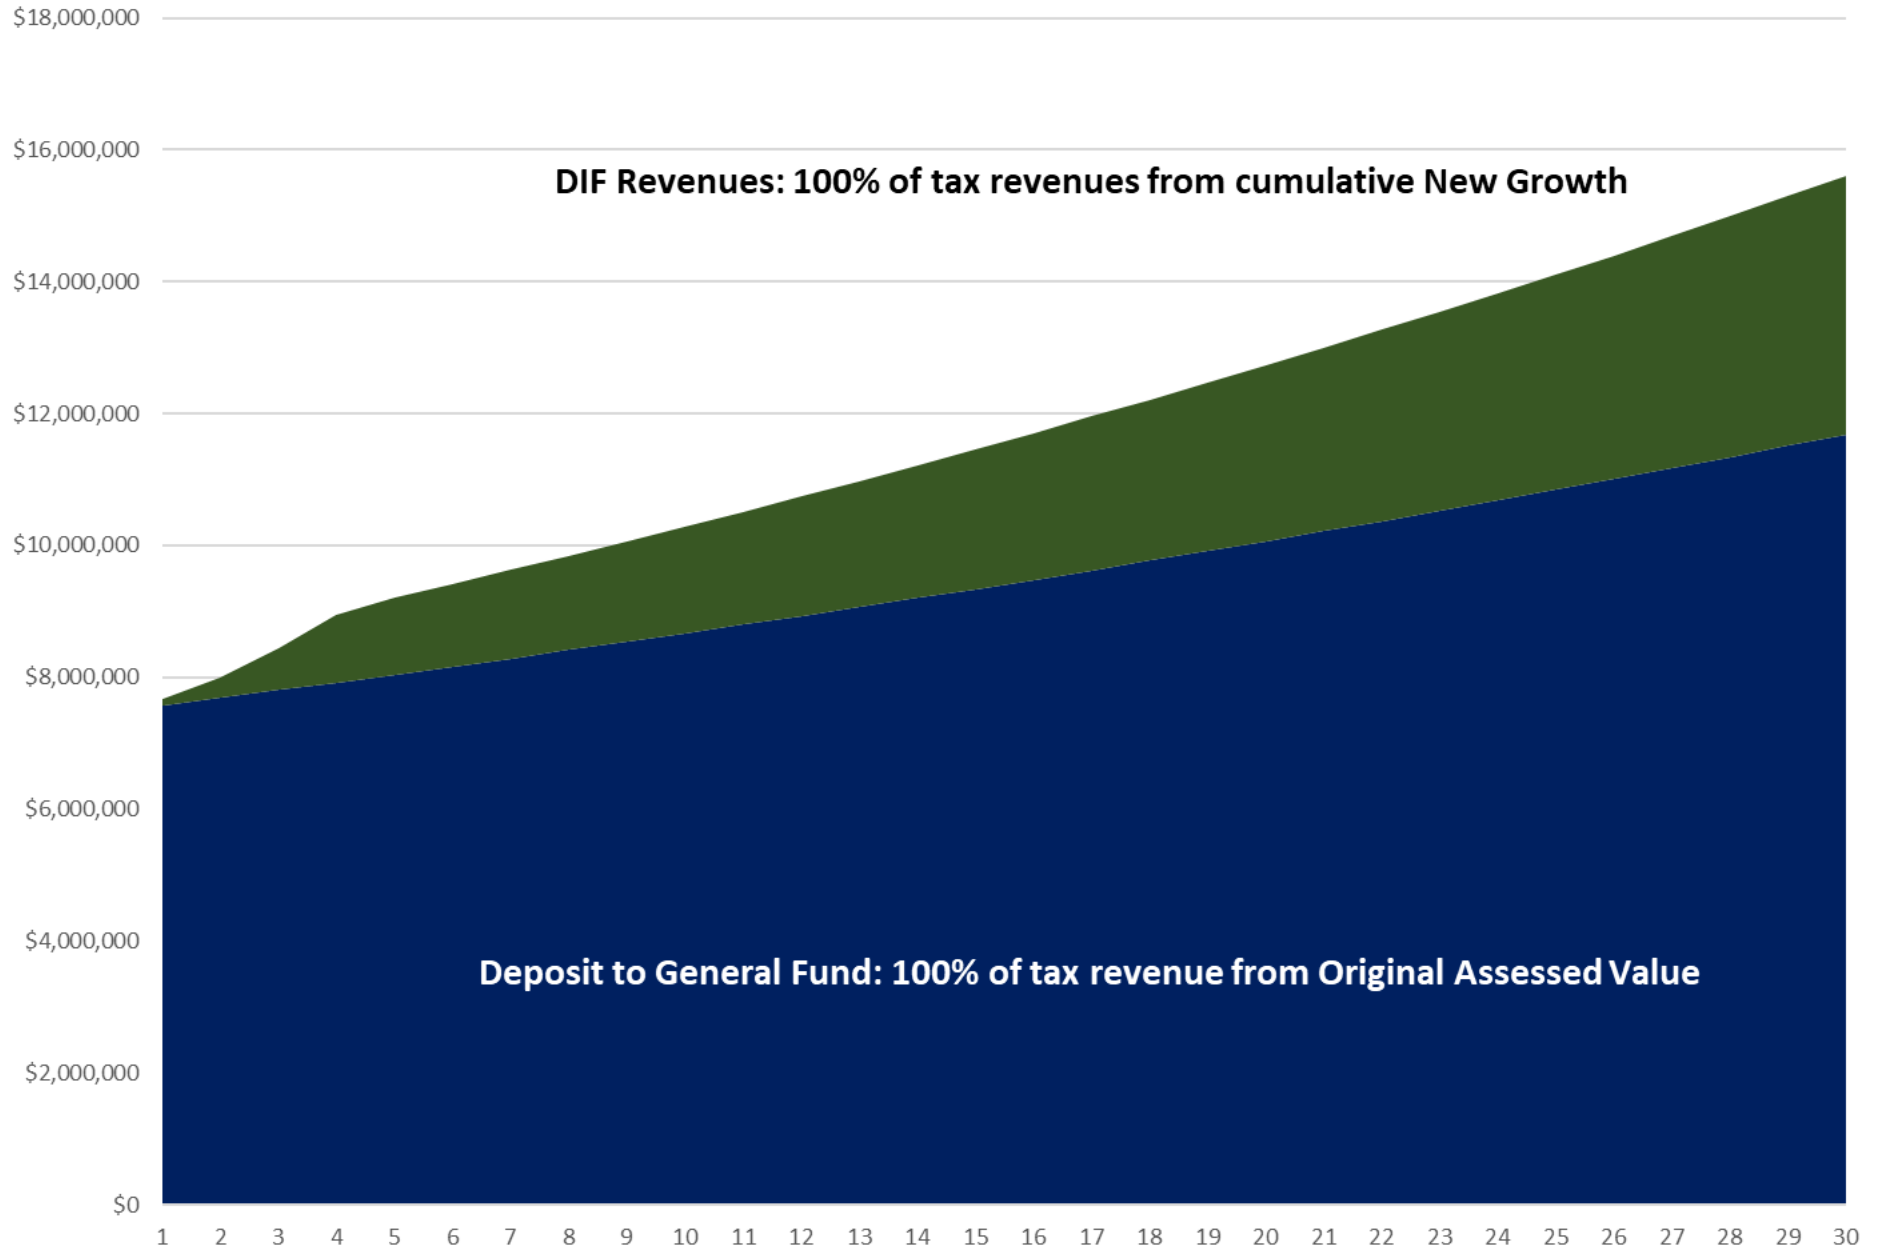

Communicates that a district is targeted for growth, and states a community's goals

Attracts new private investment by improving the district with infrastructure, and initiatives such as workforce training

Captures new tax revenues from the New Growth and makes them available to fund the projects that drive growth

HOW DIF GENERATES AND CAPTURES REVENUE

Original Assessed Value (OAV): \$3 million

Property Taxes Paid on OAV: \$59,850

(\$3 million X tax rate at 19.95 per \$1,000 of value)

Available to General Fund: \$59,850

Assessed Value (AV) of New Growth: \$10 million

Tax Revenues from New Growth in Year 1: \$199,500 (\$10 million x tax rate of 19.95)

\$997,500 of Cumulative New Growth with DIF, by Year 5

(assumes no other New Growth or tax rate changes)
