

## Wetlands Determination for Tax Assessment

If landowners require a wetlands determination for tax assessment purposes, they must file a Request For Determination with the Conservation Commission. The form can be obtained from the Commission or on the Mass. DEP Website at: <http://www.mass.gov/dep/water/approvals/wwforms.htm#noi>

Included with the filing should be a plan showing the accurate professional delineation of the wetlands on the property. This will enable the Commission to establish a Plan of Record that can be used in the review of their property by the Assessor.

For more information, please contact the Assessor's Office at:
